#### Notice of Commencement of Negotiations for Architectural Services

Notice is hereby given of the commencement of negotiations for architectural services for the expansion of housing and support buildings at the El Dorado Correctional Facility. The project has been funded for the design phase only, and those funds are contingent upon the approval of the State Finance Council.

The anticipated scope of the project is as follows:

- Prototype housing units—double-bunked three or four units.
- Industries building.
- Expansion of warehouse building.
- Expansion of parking area.
- Site utilities for six housing units.
- Upgrades at energy center.
- Perimeter fence will be constructed by owner.

Only minor revisions and verifications of compliance to latest building codes are required since the proposed buildings are replications of the existing buildings. Site grading and utilities will need to be expanded for this expansion. Emphasis will be placed on the firm's ability to provide accurate construction cost estimates. Estimated construction cost is \$23,085,000 for three housing units and \$27,990,000 for four units.

If interested, an original and six copies of the SF 255 form (plus relevant attachments of information regarding similar projects) should be submitted. These submittals should be concise, relevant to the project and follow the State Building Advisory Commission guidelines for submittal. Copies of the guidelines have previously been distributed to firms; if copies of the guidelines are required, contact Gary Grimes, Division of Architectural Services, 625 Polk, Topeka, 66603, (913) 233-9367.

Any questions or expressions of interest should be submitted to Gary Grimes by 5 p.m. August 11.

#### **Request for Comments**

The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality construction permit. Russell Stover Candies has applied for an air quality construction permit in accordance with the provisions of K.A.R. 28-19-300 to construct and operate a new facility. Emissions of particulate matter and oxides of nitrogen were evaluated during the permit review process.

Russell Stover Candies, 1000 Walnut St., Kansas City, Missouri, owns and operates the stationary source located at SE ½, Sec. 22, T24S, R18E in Allen County, at which the new facility is to be constructed and operated.

A copy of the proposed permit, permit application, all supporting nonconfidential documentation and all information relied upon during the permit application review process is available for public review during normal business hours at the KDHE, Bureau of Air and Radiation, Building 283, Forbes Field, Topeka, and at the KDHE southeast district office, 1500 W. 7th, Chanute. To obtain or review the proposed permit and supporting documentation, contact Art Hofmeister, (913) 296-0910, at the KDHE central office, or Lynn Ranabargar, (316) 431-2390, at the KDHE southeast district office. The standard departmental cost will be assessed for any copies requested.

Direct written comments or questions regarding the proposed permit to Art Hofmeister, KDHE, Bureau of Air and Radiation, Building 283, Forbes Field, Topeka, 66620. Written comments must be received by the close of business August 28 in order to be considered in formulating a final permit decision.

A person may request a public hearing be conducted on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Connie Carreno, Bureau of Air and Radiation, not later than the close of business August 28 in order for the Secretary of Health and Environment to consider the request.

#### **Request for Comments**

The Kansas Department of Health and Environment is soliciting comments regarding a proposed air quality construction permit. Schafer Corporation has applied for an air quality construction permit in accordance with the provisions of K.A.R. 28-19-300 to install and operate a copper reclaiming incinerator to burn insulation off of copper wire. The incinerator is manufactured by the United Division of Al-Jon, Inc., Topeka. Emissions of particulate matter were evaluated during the permit review process.

Schafer Corporation, 501 Terrace Drive, Pratt, owns and operates the stationary source located at 815 E. Gilbert, Wichita, at which the incinerator is to be installed.

A copy of the proposed permit, permit application, all supporting nonconfidential documentation and all information relied upon during the permit application review process is available for public review during normal business hours at the KDHE, Bureau of Air and Radiation, Building 283, Forbes Field, Topeka, and at the Wichita-Sedgwick County Department of Community Health, 1900 E. 9th, Wichita. To obtain or review the proposed permit and supporting documentation, contact Eugene Sallee, (913) 296-1575, at the KDHE central office, or Fred Spencer, (316) 268-8449, at the Wichita-Sedgwick County Department of Community Health. The standard departmental cost will be assessed for any copies requested.

Direct written comments or questions regarding the proposed permit to Eugene Sallee, KDHE, Bureau of Air and Radiation, Building 283, Forbes Field, Topeka, 66620. Written comments must be received by the close of business August 28 in order to be considered in formulating a final permit decision.

A person may request a public hearing be conducted on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Connie Carreno, Bureau of Air and Radiation, not later than the close of business August 28 in order for the Secretary of Health and Environment to consider the request.

#### **Notice Concerning Kansas Water Pollution Control Permits**

In accordance with state regulations 28-16-57 through 63, 28-18-1 through 4, and the authority vested with the state by the administrator of the U.S. Environmental Protection Agency, tentative permits have been prepared for discharges to the waters of the United States and the state of Kansas for the applicants described below. The tentative determinations for permit content are based on preliminary staff review, applying the appropriate standards, regulations, and effluent limitations of the state of Kansas and the EPA, and when issued will result in a state water pollution control permit and national pollutant discharge elimination system authorization to discharge subject to certain effluent limitations and special conditions.

#### **State Corporation Commission**

Notice of General Investigation

The State Corporation Commission has directed that a general investigation be conducted regarding the rules and regulations governing the establishment of appropriate allowables and conservation of natural gas in the Panoma Council Grove gas pool in Finney, Grant, Hamilton, Haskell, Kearny, Morton, Seward, Stanton, Stevens and Wichita counties. In order to fully and adequately explore and resolve issues regarding the provisions of the current basic proration order (B.P.O.) for the Panoma Council Grove gas field and provide for the orderly and efficient presentation of evidence regarding same, the commission has set this matter for hearing subject to the following terms, conditions and limitations:

1) On or before August 7, all interested parties shall file with the commission a statement of position setting forth any proposed changes and modifications to the B.P.O. they suggest and the basis therefore.

On August 14, a pre-hearing conference will be conducted at 10 a.m. pursuant to K.A.R. 82-1-222.

3) On or before August 29, all parties who intend to present evidence shall prefile their testimony and exhibits with the commission. The prefiled testimony should fully address each party's positions, both in favor of and against proposed modifications or changes as set forth in the statements of position.

4) On or before September 8, limited prefiled responsive testimony will be permitted to be filed with the commission, but should only address specific points

raised on direct.

5) On September 18, a hearing will be conducted at 9 a.m. to allow for the presentation of all prefiled testimony and exhibits and to allow cross-examination thereon. The hearing will continue September 19-21 and, if necessary, September 25-28.

6) Upon conclusion of the hearing the commission will determine if changes or modifications are needed to the Panoma Council Grove B.P.O. If any changes or modifications are made, it is anticipated that the ef-

fective date will be November 1, 1995.

At the pre-hearing conference other issues, deadlines and time-frames will likely be discussed and certain stipulations may be entered into which may affect the outcome or conduct of these proceedings and the deadlines set forth above.

All pre-hearings and hearings, unless otherwise ordered, will be in the commission's hearing room, Room 2078, Finney State Office Building, 130 S. Market, Wichita.

All pleadings, testimony and exhibits required to be filed with the commission shall be filed by sending an original plus six copies to the Conservation Division Office, Finney State Office Building, Room 2078, 130 S. Market, Wichita, 67202. Two copies of such pleadings, testimony and exhibits shall also be served on all counsel of record. Questions should be directed to William J. Wix, Assistant General Counsel, at (316) 337-6200.

Notice of Call for Redemption City of Kechi, Kansas Internal Improvement Bonds Series A, 1985

The governing body of the City of Kechi, Kansas, has by Ordinance No. 325 adopted August 13, 1992, irrevocably called for redemption and payment prior to their respective maturities, pursuant to the provisions of Section 2 of Ordinance No. 230 of the city, adopted August 8, 1985, the city's Internal Improvement Bonds, Series A, 1985, dated as of August 1, 1985, which mature September 1, 1996, and thereafter as hereinafter more specifically described. The date established for such redemption and payment, subject to any provisions and limitations set forth herein, is September 1, 1995 (the redemption date). The city has established an escrow trust account for the payment of the Series A, 1985 Bonds so called for redemption and payment on the redemption date.

The Series A, 1985 Bonds called for redemption and payment on the redemption date mature and bear interest

as follows:

Maturity Date	Aggregate Principal Amount	Interest Rate
9-1-96	\$20,000	10.00%
9-1-97	20,000	10.25%
9-1-98	20,000	10.25%
9-1-99	25,000	10.50%
9-1-00	25,000	10.50%

The Series A, 1985 Bonds which have been called as described above shall become due and payable on the redemption date at a price (expressed as a percentage of the principal amount) of 102 percent, plus accrued interest for the six-month period from March 1, 1995, to the redemption date.

On the redemption date, provided that funds are on hand to pay the above described Series A, 1985 Bonds as aforesaid, the Series A, 1985 Bonds which have been called as described above will be due and payable at the Office of the Kansas State Treasurer, Topeka, Kansas, the paying agent; and from and after the redemption date, all interest on the Series A, 1985 Bonds which have been called as described above will cease to accrue.

Under the provisions of the Interest and Dividend Tax Compliance Act of 1983, as amended and codified at Section 3406(a)(1) of the Internal Revenue Code of 1986, paying agents making payments of interest or principal on corporate securities or making payments of principal on municipal securities may be obligated to withhold a 31 percent tax remittance from individuals who fail to furnish the paying agent with a valid taxpayer identification number. Holders of the 1985 Bonds who wish to avoid the imposition of this required withholding tax should submit certified taxpayer identification numbers when presenting their bonds for payment.

82-5-13. Overhead clearance. Each railroad shall comply with the following provisions regarding the minimum overhead clearance allowed for railroad safety.

(a) Overhead clearance shall be a minimum of 22 feet, six inches, unless excepted in another subsection of this

regulation.

(b) In buildings, clearances may be reduced to 18 feet, for those tracks terminating:

(1) within the building; or

(2) in the immediate plant area, if the tracks extend through the building. Overhead clearance of doors may be reduced to 17 feet, no inches.

(c) In tunnels, the minimum clearance shall be defined by the half-circumference of a circle having a radius of eight feet and a tangent to a horizontal line 23 feet above the top of the rail at a point directly over the center line of track.

(d) The clearance under bridges shall be a minimum

of 22 feet.

(e) All other structures, except as specifically provided in these regulations, shall have a minimum clearance as defined by starting at the center of the track at the top of the rail, then eight feet, six inches laterally from the center line of track, then vertically upward to a point 16 feet above the top of the rail, then diagonally upward to a point 22 feet, six inches above the top of the rail and four feet horizontally from the center of track, then horizontally to the center of the track. Overhead clearance may be reduced if overhead telltales are maintained for clearance less than 22 feet, six inches. However, any reduction of clearance below 22 feet, six inches shall be approved by the commission.

The minimal vertical clearance requirements under all wires, including wires, conductors, and cables over railroad tracks, shall be those specified in K.A.R. 82-12-2. - (j) "Utility" means organizations, individuals or others whose supply line construction comes under the jurisdiction of the commission as provided in K.S.A. 66-104. (Authorized by and implementing K.S.A. 66-183; effective Aug. 11, 1995.)
- 82-12-2. Adoption by reference of the National Electrical Safety Code, or NESC, 1993 edition. The standard entitled the "National Electrical Safety Code," or NESC, of the American National Standards Institute, Inc., 1993 edition, ANSI C2-1993, approved July 10, 1992, and published by the Institute of Electrical and Electronic Engineers, Inc., is adopted by reference. However, the standard for minimum vertical clearance of wires, conductors, and cables over railroad tracks shall be the greatest of the applicable values specified in the NESC Table 232-1, K.S.A. 66-183, and K.S.A. 66-320. Copies of the NESC are available from the Institute of Electrical and Electronic Engineers, Inc. A reference copy of the NESC is also available at the commission. (Authorized by and implementing K.S.A. 66-183; effective Aug. 11, 1995.)
- 82-12-3. Utility applications for electric supply lines. Each utility proposing to build a new electric supply line, or contemplating a change in an existing electric supply line located outside the corporate limits of any city, shall present an application to the commission for approval. The application shall consist of a completed ap-

plication form as approved by the commission, and any other information required by the form or these regulations including:

(a) Maps and plats, of a scale of at least one inch to the mile, showing any changes or additions to the electric

supply lines; and

(b) a cost breakdown of the construction or extensions

with unit cost of the plant.

On or before the day the application is submitted to the commission, the utility shall send written notice of the proposed construction or changes as required by K.A.R. 82-12-5. (Authorized by and implementing K.S.A. 66-183; effective Aug. 11, 1995.)

82-12-4. Exceptions to 82-12-3 application. (a) Any utility may proceed with necessary construction, in cases of emergency, after written or telephone communication with the commission establishing need and securing emergency approval from the commission, if:

(1) The utility complies with the rules and regulations to the extent practicable under the circumstances; and

- (2) the utility files immediately with the commission an application as approved by the commission showing that the construction will ultimately be brought into full conformity with the regulations.
- (b) A utility may proceed with construction of any electric supply line without submitting an application under K.A.R. 82-12-3, if all of the following requirements
- (1) Prior to beginning construction, the utility shall give written notice to railroads and other utilities having facilities within 1/2 mile of any contemplated electric supply line construction or change in construction.
  - (2) The proposed electric supply line shall:

(A) be within the utility's certified area;

- (B) not interfere with the supply lines, tracks or facilities of other utilities or railroads; and
- (C) be no longer than 1/2 mile. However, if the proposed extension is to an extension previously made under this exception, then the combined length of the proposed and original extensions shall be considered as the length of the proposed extension for purposes of this subsection. If the combined length exceeds ½ mile, then K.A.R. 82-12-3 application is required for the combined length. (Authorized by and implementing K.S.A. 66-183; effective Aug. 11, 1995.)
- 82-12-5. Notice of construction of electric supply lines. On or before the day a utility makes an application to the commission for any contemplated electric supply line construction, change in construction, or change in operating conditions to be located outside the corporate limits of any city, the utility shall send written notice of their
- (a) To the commission, at least 10 days before commencing construction;
- (b) to railroads within ½ mile of the contemplated construction. The application shall not be considered for approval until at least 15 days after that notice is sent; and
- (c) to all other utilities within ½ mile of the contemplated construction unless the utilities have executed a joint use or other agreement covering the area in which the construction is proposed. The application shall not be

considered for approval until at least 10 days after this notice is sent. (Authorized by and implementing K.S.A. 66-183; effective Aug. 11, 1995.)

**82-12-6.** Requirements for the installation of warning buoys and warning spheres installed in connection with electric lines crossing water areas suitable for sailboating. (a) Each electric utility in Kansas that maintains electric lines over water areas, other than rivers, streams and creeks, which are suitable for sailboating, or other water sports, shall place warning buoys in the water under electric lines and warning spheres on the electric lines, where they cross water.

(b) A waiver, as deemed appropriate, of the sphere and buoy requirement may be granted by the commission for good cause upon application by the utility. Applications for waivers may be submitted by each electric utility at the same time it supplies the information required by subsection (c). Each application for waiver shall specify the reasons for the requested waiver and assess the safety implications of the commission's waiver of the buoy and

sphere requirement.

(c) For each newly constructed or reconstructed electric supply line which crosses water areas suitable for sailboating or other water sports, each electric utility shall report the following facts in an attachment to the application form at the time of application:

(1) The name, type, configuration, and location of the electric line that crosses one or more water areas that are

subject to this regulation;

(2) the length and primary voltage of the electric line

crossing the water area;

- (3) the approximate clearance height of the electric line above water, at its lowest point, using the design high water level;
- (4) the number of spheres and buoys installed under and on each line; and
- (5) the expected date of the installation of the line, spheres and buoys, and the expected date for which the

line will initially be energized.

- (d) The placement of warning buoys and warning spheres is the minimum level of safety which shall be provided. Each utility may, at its option, provide a greater level of protection for the general public by relocating the electric line or taking other equivalent measures. (Authorized by and implementing K.S.A. 66-183; effective Aug. 11, 1995.)
- **82-12-7.** Utility requirements for telecommunication supply lines. (a) A utility may proceed with construction of any telecommunication supply line if all of the following requirements are met.
- (1) Prior to beginning construction, the utility shall give written notice to all of the following entities that have facilities within ½ mile of any contemplated telecommunication supply line construction or change in construction:

(A) railroads; and

(B) other utilities, unless the utilities have executed a joint use or other agreement covering the area in which the construction is proposed.

(2) The proposed telecommunication supply line con-

struction shall:

(A) be within the utility's certified area; and

(B) not result in any objection from other utilities or railroads that have been given written notice as required

by paragraph (a)(1) above.

(b) Each utility owning or operating one or more telecommunication supply lines shall file with the commission, in an annual telecommunication supply line report, a map or maps showing routes for all of its existing telecommunication supply lines. Annual reports shall be due on March 31 of each calendar year. Maps provided shall indicate the following:

(1) any specific additions or changes to the telecommunication supply lines in the previous calendar year.

(2) whether lines are toll, interexchange, or local exchange lines;

(3) whether lines are constructed or fiberoptic, copper or other material;

(4) whether lines are analog or digital; and

(5) the location of microwave towers.

The format of the filed maps shall be on a scale of at least one inch to the mile, or in electronic form approved by the commission. (Authorized by and implementing K.S.A. 66-183; effective Aug. 11, 1995.)

**82-12-8.** Coordinated location of lines. In order to provide for the efficient and effective use of the public and private roads, each utility constructing supply lines shall locate those lines in conformance with the following requirements.

(a) When there are two or more practical methods of locating supply lines in a manner that avoids conflicts or prevents objectionable interference between lines, the method involving the least total cost shall be used regardless of which party takes precautionary or special measures.

(b) Each utility shall, to the extent possible, construct and locate supply lines so as to avoid crossing roads or any other features which will cause unnecessary discontinuities. (Authorized by and implementing K.S.A. 66: 183; effective Aug. 11, 1995.)

**82-12-9.** Inductive coordination. When there is inductive interference, each affected utility shall work out an agreement to attain inductive coordination. When such an agreement is necessary, the most convenient and economical method consistent with effectiveness shall be employed whether that method limits inductive influence of the electric circuits, the inductive susceptiveness of the communication circuits, the inductive coupling between the two kinds of circuits or employs a combination of these methods. If there is a choice of methods, the one selected shall be applied to one or both systems according to the best engineering solution regardless of which circuit will require the greatest cost in corrective measures. (Authorized by and implementing K.S.A. 66-183; effective Aug. 11, 1995.)

# Order a custom-made loose-leaf binder for the Kansas Register!

Custom-made Kansas Register
binders are now available. These
binders will attractively hold up to a
year's worth of your copies of the Kansas
Register for permanent use. They are high quality,
durable casebound Swing Hinge® binders made by McBee Loose
Leaf Binder Products. (A Swing Hinge® binder has more capacity
and allows for easier interfiling than standard ring binders.) The
three-inch binders feature dark blue supported vinyl covering and
gold imprinting.
